Plugin Besteron Joomla(VirtueMart) plugin slúži na implementáciu platobnej brány Besteron do modulu VirtueMart pre CMS Joomla. Prítomnosť modulu VirtueMart je preto nevyhnutná pre chod pluginu a pred inštaláciou pluginu musí byť modul VirtueMart nainštalovaný.

Plugin Besteron pridá platobnú metódu ktorá sprístupní všetky platobné brány, ktoré implementuje služba Besteron.

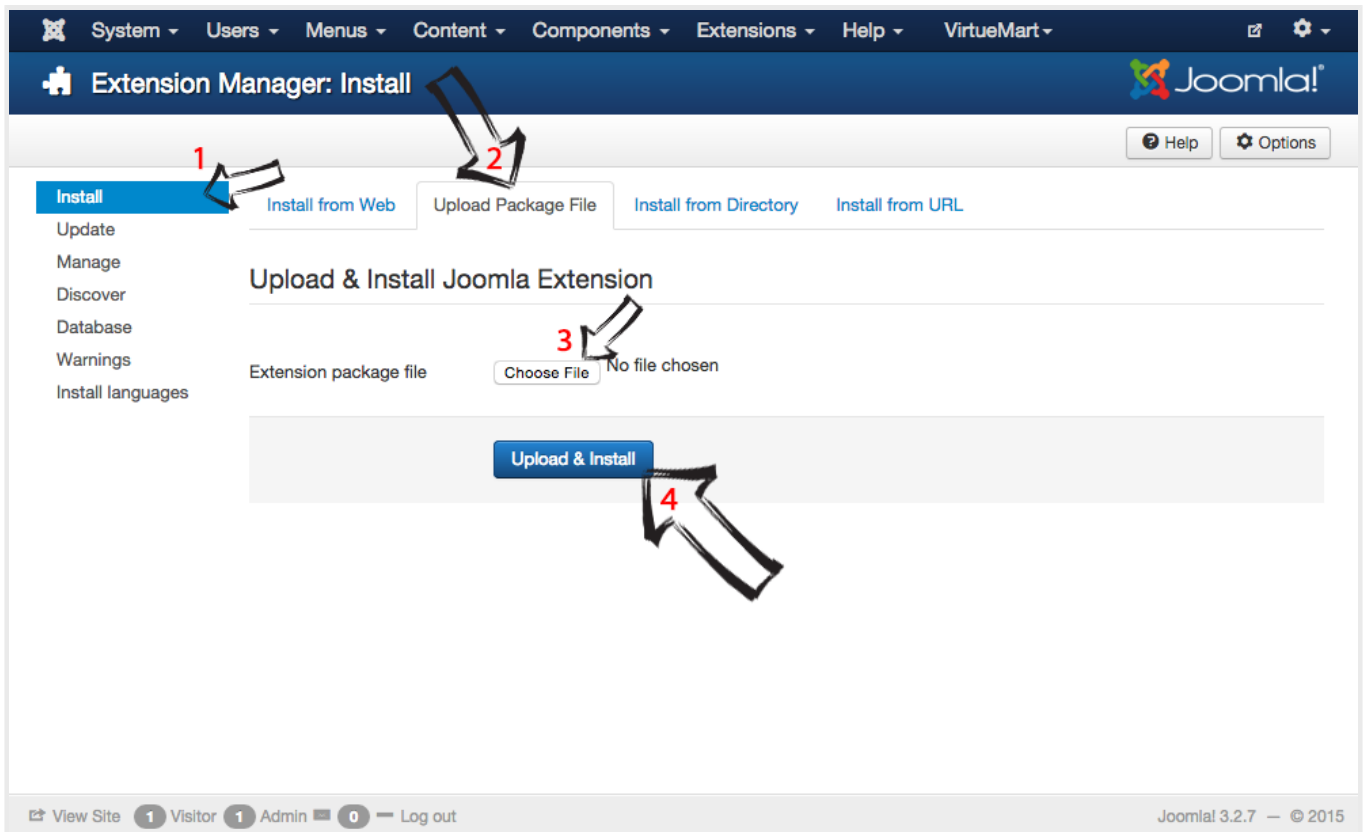

1 Inštalácia pluginu

Inštalácia pluginu sa vykonáva cez štandardné rozhranie administrácie CMS Joomla. (Extensions - Extension Manager)

The screenshot shows the Joomla! administrator control panel. The top navigation bar includes 'System', 'Users', 'Menus', 'Content', 'Components', 'Extensions', 'Help', and 'VirtueMart'. The 'Extensions' menu is open, showing options: 'Extension Manager', 'Module Manager', 'Plugin Manager', 'Template Manager', and 'Language Manager'. The main content area is divided into sections: 'CONTENT' (Add New Article, Article Manager, Category Manager, Media Manager), 'STRUCTURE' (Menu Manager, Module Manager), 'USERS' (User Manager), and 'CONFIGURATION' (Global Configuration, Template Manager, Language Manager). There are also sections for 'LOGGED-IN USERS', 'POPULAR ARTICLES', and 'RECENTLY ADDED ARTICLES'. The status bar at the bottom shows 'View Site', '1 Visitor', '1 Admin', '0 Log out', and 'Joomla! 3.2.7 - © 2015'.

V ďalšom kroku vyberieme v menu položku "Install" [1]. Následne tab "Upload Package File" [2], keďže inštalujeme nový plugin zo .ZIP súboru. V tabe vyberieme súbor z disku [3] a pošleme súbor na server [4].
